ATLAS O, HO, & N 42' COIL STEEL CARS

EXCLUSIVE MEMBERS ONLY 2011 SPECIAL PURCHASE ORDER FORM

IHB stands for the Indiana Harbor Belt, which is a terminal and switching Class III Railroad. IHB has been in continuous operation since 1907 in and around Chicago... the Railroad Capital of the United States. IHB is 51% owned by CSX and Norfolk Southern (NS) with Canadian Pacific (CP) owning the rest. Needless to say this railroad has an interesting history with their reporting marks being found on trains anywhere in the country.

The increased volume of coiled steel transportation gave rise to a new purpose-built freight car. Previously rolls of coiled-steel had generally traveled in specially equipped gondola cars. In the 1960s a lighter type of car emerged specifically for hauling coils of steel in an integral trough. The car type gained popularity and eventually over

17,000 cars were built. This model represents one of the cars that was originally built for Norfolk Southern. The Indiana Harbor Belt replaced the "NS" reporting marks with "IHB" but retained the original NS number. Atlas' model replicates a 42' design with a distinctive fishbelly side sill.

Features:

- Prototypical painting and lettering
- See-through walks
- Removable hood
- Inside floor detail
- Cut-levers
